Subject: RE: Puget Sound Staffing

Chris, thanks for the invite. Here's what I do currently on PS:

Primary EPA contact to PNNL on Salish Sea Model activities
Peer review all draft Salish Sea Model (SSM) reports
Monitor/advise SSM Climate Change project funded by the Corps (soon to be completed)
Work with Dino to monitor/advise on new Interagency Agreement for SSM development
Technical monitor on the Puget Sound Institute grant – this has been inactive for a while for some reason. Maybe I got fired and didn't know it.
Review modeling QAPPs for EPA funded projects in Puget Sound
Budd Inlet TMDL – advisory role on project team
Chair of PSEMP Modeling Workgroup – probably shouldn't be since I never call meetings...!

-----Original Appointment-----

From: Zell, Christopher
Sent: Wednesday, October 25, 2017 6:22 AM
To: Mann, Laurie; Cope, Ben; Croxton, Dave
Subject: Puget Sound Staffing
When: Monday, November 20, 2017 2:00 PM-3:00 PM (UTC-08:00) Pacific Time (US & Canada).
Where: Dave's Office

A meeting to identify an optimized mix of roles and responsibilities. Let's compile a list of OERA and watershed unit related activities --- then discuss how we can best leverage our capacity, talents, and interests. November 20th seems to be the earliest time we are all available (crazy—right?). Ben, would you mind listing out the activities you are involved in – Laurie and I can do the same.

Thanks!

Chris
